

WHAT ARE PEOPLE WHO ATTENDED DEARNE VALLEY LEISURE CENTRE FOR THEIR COVID-19 VACCINATION TELLING US ABOUT THEIR EXPERIENCE?

MAY 2021

BACKGROUND

Healthwatch Doncaster have worked with Primary Care Doncaster, NHS Doncaster CCG and Doncaster Council to develop a survey about Covid-19 vaccinations that captures:

- Experience of the vaccination hubs in Doncaster
- Information about why some people are choosing not to be vaccinated
- Ideas about where people who have not been vaccinated yet (18-35) want to go to access vaccinations in the future

The survey was accessible online and ran for 3 weeks. It was shared to all Healthwatch Doncaster members, contacts, groups and networks. Social media posts were shared by local partners and paid for/promoted posts on Facebook have also been used to target people aged 18-50. The link to the survey was included in the VCF Newsletter which reaches a large number of community groups and organisations.

The survey was designed in such a way to provide a range of data and information about the views and experiences of:

- People who have been vaccinated and their experience of the vaccination process in hubs in Primary Care Network local areas across Doncaster
- People who have not yet been vaccinated but will take up the offer of being vaccinated
- People who have not been vaccinated and will not take up the offer of being vaccinated
- People aged 18-35 to provide insight into where future vaccination pop-up clinics might be needed

There was a great response to the survey and 4019 people took the time to complete the survey and share their views.

This report presents the data and information provided by people who attended the South PCN Vaccination Hub at the Dearne Valley Leisure Centre. **There were 475 people who shared their views and experiences of the South PCN Vaccination Hub at the Dearne Valley Leisure Centre.**

KEY MESSAGES

475 people who attend the Dearne Valley Leisure Centre vaccination clinic completed the survey. The majority of people completed the survey online. Healthwatch Doncaster attended a vaccination clinic session in May 2021 to enable people who were not digitally connected to share their views and experiences. This information was collected by the team through a conversation and the use of Healthwatch Doncaster's mobile devices.

FEEDBACK ON THE VACCINATION EXPERIENCE

Booking Process

- Star rating: 4.6/5 
- 96% rated the booking process Excellent, Very Good or Good

Location of the vaccination hub

- Star rating: 4.4/5 
- 95% rated the location of the vaccination hub as Excellent, Very Good or Good
